# **Welding Reels**

Hannay Reels®

| Mobile and Fixed Installations | Arc Welding | Gas Welding | Cutting Operations |

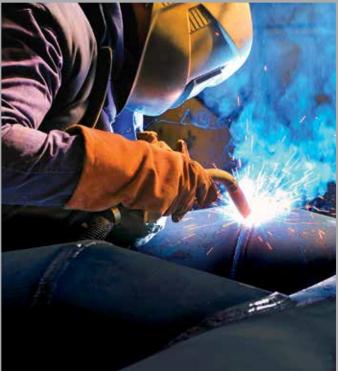

Family owned and operated since 1933

## **CONTENTS**

Hannay hose reels come in all sizes and capacities.

Reel Type	Page
Arc Welding Reels	
Model WCR11-17-19	3
Series SWCR/WCR	4-5
Series TWCR	6
Gas Welding Reels	
Series N400	7
Series 2400	8
Series G2400	9
Welding Hose & Cable Specifications	10
Hannay Reels Sales Policies	11

## Only one reel bonds quality and value.

When it comes to safety and efficiency, you can count on Hannay Reels. Used worldwide, our durable, dependable reels help your operation run smoothly – and reduce workplace accidents – by keeping hoses and cables organized and off the floor.

We offer the widest variety of arc and gas welding reels

in the industry. Our high quality reels are built to last and engineered specifically for welding – never retrofitted to the job – so you can expect unsurpassed fit and function.

## Uses:

- Mobile and fixed installations
- Arc welding
- Gas welding
- Cutting operations

## **ARC WELDING REELS**

## Model **WCR11-17-19**

• Manual Rewind • Portable Reel

## To handle #2 through 4/0 cable to 400 amps.

- For use with single-conductor electrode cable or for grounding lead.
- 400-amp rotary electrical device.
- Rugged portable reel with carrying handle.
- Instant use with any cable length unwound.
- Quick connection to your welder.
- Manual rewind (permanently attached knob).
- Adjustable friction brake.

Protective Ground Lug Boot Part No. 9955.0202 Standard on reel

## **ARC WELDING REELS**

## Series SWCR/WCR

• Spring, Power or Manual Rewind • Arc Welding

## To handle #2 through 4/0 cable to 400 amps.

- For use with single-conductor electrode cable or grounding lead.
- 400-amp rated rotary electrical device.
- Instant use with any cable length unwound.
- Quick connection to your welder.
- Easy access and greaseable zerk fitting.

## SWCR

- Non-sparking ratchet assembly.
- Declutching arbor is provided to prevent damage from reverse winding.
- A cable stop should be used.
- Four-way roller assembly. Roller position must be specified.

### WCR

- Gear-driven crank rewind, chain and sprocket powered by an electric, hydraulic or compressed air motor or spring rewind.
- Auxiliary rewind and pinion brake standard.
- Chain guards are available, must be specified.
- Rollers and roller mounting brackets are accessory items. Specify roller position.

Standard SR configuration shown with optional cable and stop

Protective Ground Lug Boot Part No. 9955.0202 Standard on reel

## Series SWCR/WCR

• Spring, Power or Manual Rewind • Arc Welding

### Notes:

- 1. Specifications subject to change.
- Upon request, reels can be supplied with drum lengths other than shown and with disc sizes in other diameters.
- Weights shown in chart are for crank or spring rewind models. ADD these amounts for power rewind models (Series WCR):

	Net lbs/kg	Ship lbs/kg
Electric	<b>40</b> /18.1	<b>40</b> /18.1
Hydraulic	<b>20</b> /9.1	<b>20</b> /9.1
Air	<b>20</b> /9.1	<b>20</b> /9.1
AII	-0/0.1	

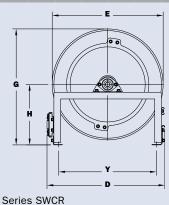

- 4. When ordering power rewind Series WCR, prefix model number with:
  - **A** = Air Rewind
  - **EP** = Electric Rewind
- **HD** = Hydraulic Rewind

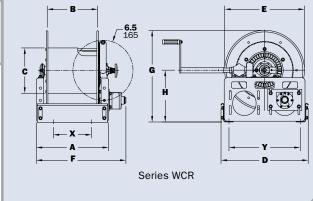

(Air rewind reels are supplied with control valve and 18" air hose; 12v and 24v DC rewind reels are supplied with switch and solenoid; 115v AC rewind reels require double pole single throw switch which is not supplied, but can be ordered separately, hydraulic rewind reels are not supplied with control valve.)

- 5. Be sure to check dimensions and weights prior to ordering.
- For welding hose and cable specifications see page 10.
- 7. Finish: Refer to Ordering & Accessory catalog page 19.
- \*\*\* X, Y indicate mounting holes. See page 10.

## **ARC WELDING REELS**

## Series TWCR

Manual Rewind • Twin Arc Welding

## To handle #1 through 4/0 cable to 400 amps.

- Designed to handle both grounding and arc welding leads on the same reel unit.
- Two independent spools to hold separate lengths of welding cable.
- 400-amp rotary electrical device for instant and constant use.
- Instant use with any cable length unwound.
- Gear-driven crank rewind with a removable handle.
- Dual pinion brakes.
- Rollers and roller mounting brackets are accessory items. Specify roller position.

Protective Ground Lug Boot Part No. 9955.0202 Standard on reel

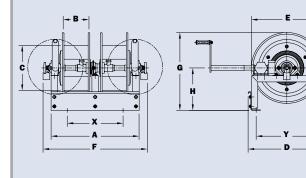

Standard configuration shown

- 1. Specifications subject to change.
- 2. Be sure to check dimensions and weights prior to ordering.
- 3. For welding hose and cable specifications see page 10.
- 4. Ship via freight only. UPS or FedEx shipping is not available on this series reel.
- 5. Finish: Refer to Ordering & Accessory catalog page 19.
- \*\*\* X, Y indicate mounting holes. See page 10.

## **GAS WELDING REELS**

## Series N400

Oxy/Fuel Welding
 Spring Rewind

## To handle twin 1/4" or 3/8" I.D. welding hose.

- Heavy-duty spring motor.
- Non-sparking ratchet assembly.
- · Declutching arbor to prevent damage from reverse winding.
- Standard inlets: 90° ball bearing swivel joints, 1/2" female NPT threads. Oxy/acet brass inlet adapters are available.
- Standard outlets: male 9/16"-18 threads, right-hand for oxygen, left-hand for gas.
- Pressures to 300 psi (21 bar).
- Standard fluid temperatures from -40° F to +250 °F (-40° C to +121° C). Optional temperature ratings available - consult factory.
- Type of gas used must be specified.
- · 4-way roller assembly. SR position is standard, other configurations available, must specify.
- Hose stop is required.

with optional hose and stop

## **GAS WELDING REELS**

## Series **2400**

• Manual (MX) or Power Rewind • Oxy/Fuel Welding

## To handle twin 1/4" through 3/8" welding hose.

- MX chain-driven crank rewind or powered by a compressed air or hydraulic motor.
- MX rewind reels supplied with a pinion brake.
- Power reels not supplied with a brake.
- Standard inlets: 90° ball bearing swivel joints with 1/2" female NPT threads. Oxy/acet brass inlet adapters are available.
- Standard outlets are male 9/16"-18 threads. Right-hand for oxygen, left-hand for gas.
- Pressures to 300 psi (21 bar).
- Standard fluid temperatures from -40° F to +250 °F (-40° C to +121° C). Optional temperature ratings available consult factory.
- Type of gas used must be specified.

### Model A2400

• Rollers and roller mounting brackets are accessory items. Specify roller position.

## PARTS DRAWING - ISO 187 POWER; ISO 213 MANUAL (MX)

#### Notes:

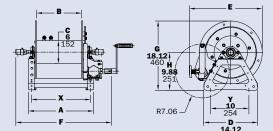

- 1. Specifications subject to change.
- Upon request, reels can be supplied with drum lengths other than shown and with disc sizes in other diameters.
- Weights shown in chart are for crank rewind models. ADD these amounts for power rewind models:

	Net lbs/kg	Ship lbs/kg
Hydraulic	<b>15</b> /6.8	<b>15</b> /6.8
Air	<b>15</b> /6.8	<b>15</b> /6.8

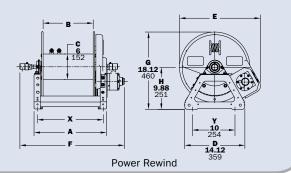

- 4. Dimension "F" is the overall length of standard model reels. On crank rewind models, the dimension shown is with the crank in rewind position. Reels require 2" clearance to remove crank handle.
- 5. When ordering power rewind models replace MX prefix with:
  - A = Air Rewind
  - HD = Hydraulic Rewind

(Air rewind reels are supplied with control valve and 18" air hose; hydraulic rewind reels are not supplied with control valve.)

- 6. Be sure to check dimensions and weights prior to ordering.
- 7. For welding hose and cable specifications see page 10.
- 8. Some roller options may prohibit the use of our molded chain guard.
- 9. See page 9 for optional External Mounting Brackets.
- 10. Finish: Refer to Ordering & Accessory catalog page 19.
- **NOTICE:** A Flexible Connector must be used between the inlet pipe and the inlet swivel joint.
- \* Dimensional weight may apply when shipped
- as a parcel package (via FedEx or UPS Ground)
- \*\*\* X, Y indicate mounting holes. See page 10.

## Welding Hose & Cable Specifications

## **Welding Hose**

Our oxygen/acetylene grade R hose assemblies with inside diameters of 1/4" and 3/8" have working pressures of 200 psi (14 bar), working temperatures of -40°F to +200°F (-40°C to +93°C), and have an EPDM core and cover with one textile braid reinforcement. This hose is designed for oxygen/acetylene only. Grade T oxygen/acetylene, propane, or M.A.P.P. hose is also available.

For hose assembly details and pricing, consult your Hannay dealer or factory.

### WELDING AND GROUNDING CABLE

	Area (Per 0	Conductor)
Wire Size (AWG)	Circ. Mills	Sq. mm
#2	66,500	33.7

Pressed Frame Reels and Channel Framed Reels	7/16" wide x 7/8" long slot running left to right
Series 2000	13/32" round holes

## Hannay Reels Sales Policies

## Hannay Reels 3-Year Limited Warranty

Products manufactured by Hannay Reels, Inc. ("Hannay") are warrantied for 3 years from date of shipment when properly installed, maintained, and operated in accordance with Hannay instructions. In no event will Hannay have a warranty obligation for normal wear and tear, or for products that have, at Hannay's determination, been subjected to accident, abuse, misapplication, improper installation or improper maintenance. Common examples of normal wear and tear would include paint finish, swivel joint seal wear, and switch or motor brush wear.

Hannay makes no warranties, express or implied, other than those included in this warranty statement, and we disclaim any implied warrant of merchantability or fitness for any particular purpose. Hannay will not be liable for any consequential, incidental, or indirect damages from any cause whatsoever.

Failure to use a flexible inlet connection on any live hose reel will void the swivel joint warranty. Failure to use a properly sized circuit breaker with any electric rewind motor will void the electric motor warranty. Failure to use a filter and lubricator on any air rewind motor will void the air motor warranty. Failure to follow all procedures outlined in the Safety Guidelines document will void the warranty.

Components not manufactured by Hannay will be subject to the original manufacturers' warranties. Examples of such components include: hose and cable, motors, speed controls, and switches, swivel joints and seals, slip ring and brush assemblies.

Equipment which proves to be defective upon our inspection will be replaced free of charge, including freight to the customer. Our responsibility ceases upon delivery to any common carrier and we do not, unless previously instructed, insure shipments beyond point of delivery to such carrier. **No material will be accepted for return without a return goods authorization (RGA).** This warranty extends to the replacement or repair of the reel or part (no labor).

Hannay reserves the right to modify or alter materials, dimensions, design, and construction when necessary to improve the performance of the reel and/or accessories, or to meet delivery requirements.

## **Notice on Reel Finish**

Standard finish on Hannay reels is a high performance enamel paint. Standard color is metallic graphite. Other colors available, please consult factory.

Most of the major components on standard reels are e-coated prior to receiving final topcoat paint finish. This combination of e-coat and enamel topcoat will meet the finish requirements of most customer applications and environments.

In cases where requirements cannot be met with the standard finish, Hannay Reels can coat any model reel with an automotive primer, allowing application of final coating at your facility.

## **Return Goods Policy**

All Hannay reels are built to order. These orders are typically placed into production within 1 business day of receipt. Once production begins, it may not be possible to cancel the order.

To prevent returns because the wrong reels or parts were ordered, please use the Hannay Reels Spec Worksheet (either online or from our Ordering & Accessory Guide) when specifying reels. Be sure to include any size, weight, pressure and/or material compatibility limitations for the application.

In the event that an item does need to be returned for credit, repair or replacement, prior approval must be obtained from Hannay Reels. Upon your request, we will send a Return Goods Alternatively, Hannay Reels can provide a quote for matching a customer-provided paint specification. For further information, please contact your Hannay Reels sales engineer and a special paint request form will be sent to you.

For environments where no paint finish is suitable, we offer both aluminum and stainless steel (304 grade) construction on most reel models.

Authorization (RGA) form. A signed copy of this form must accompany the material when returned to us, with the RGA number clearly showing on the outside of the box—a label is provided to you that you can print and attach. No product will be accepted for return or credit without an authorized RGA number.

All material must be returned prepaid, unless otherwise noted on our RGA. No return will be accepted that has been damaged due to improper return packaging, tampered with or altered from its original condition. Our restocking and handling fee is a <u>minimum</u> of 25% for standard catalog reels and parts. Custom reels specially built to customer specifications cannot be returned for any reason.
