Hannay Special Heavy-Duty 1500 Series Reels

Hannay Reels 1500 series reel, used for pressure washing, steam cleaning, high and low pressure water supply, air and more, can be upgraded to handle heavy-duty jetting operations as well.

Upgrades include providing a stiffer spool to counter high-pressure hose expansion concerns, a reinforced frame for extra rigidity and a larger drum to accommodate hose with a higher bend radius.

Standard Features:

To handle single 3/8" through 5/8" I.D. hose.

- Lightweight, compact reels designed for long lengths of hose in manual or power rewind.
- Direct crank rewind is permanently attached.
- Manual reels include cam-lock drag brake and pin lock. Power reels include chain and sprocket drive powered by electric motor.
- Standard inlet: 90° full flow swivel joint, 1/2" FNPT threads. Standard outlet: 1/2" FNPT threads.
- Standard pressures up to 3000 psi (207 bar) and temperatures to +400°F (+204°C).

Upgrade Options:

- 3/16" thick discs are 2.5 times thicker than standard to better handle high pressure hose expansion.
- 8" diameter steel 14 gage drum to handle hose with higher bend radius.
- Reinforced frame base for superior strength and rigidity.
- Optional pressures of 5,000 psi or 10,000 psi available.
