You Can’t Buy A Better Reel.

Family owned and operated since 1933
Hannay Reels is the leading manufacturer of high quality hose and cable reels for most every conceivable application. This catalog describes and gives specifications on our most popular hose reels. If you don’t see what you’re looking for, give us a call and we will help you meet your needs.

Hannay Reels offers aluminum, carbon and stainless steel construction for most models.

Special coatings and finishes are also available.

### Hannay hose reels come in all sizes and capacities.

#### Hannay hose reels come in all sizes and capacities.

**Useful Resources**

- Hannay hose reels come in all sizes and capacities.

- Hose Assemblies, Mounting Hole Sizes
- Spring Rewind Reels
  - Series AG: 1/4" – 1-1/2" hose sizes
  - Series N400: 1/4" or 3/8" hose sizes
  - Series N500 (high pressure)*: 1/4" or 3/8" hose sizes
  - Series N600 (dual hose): 1/4" – 1/2" hose sizes
  - Series 600 (dual hose): 1/4" – 3/4" hose sizes
  - Series N700*: 1/4" – 1/2" hose sizes
  - Series 700*: 1/4" – 1/2" hose sizes
  - Series N800*: 3/4" or 1" hose sizes
  - Series 800*: 3/4" or 1" hose sizes
  - Series 900*: 1-1/4" or 1-1/2" hose sizes
- Compact Manual Rewind Reels
  - Series 1000: 1/4" or 3/8" or 1/2" hose sizes
- Manual or Power Rewind Reels
  - Series 1500: 3/8" – 5/8" hose sizes
  - Series 1800: 5/8" or 3/4" hose sizes
  - Series 2000 (dual hose): 1/4" – 1/2" hose sizes
  - Series G2000 (dual hose, manual only): 1/4" – 1/2" hose sizes
  - Series 3000 (manual only): 3/4" or 1" hose sizes
  - Series 3500 (manual only): 1-1/4" or 1-1/2" hose sizes
  - Series 4000: 3/4" or 1" hose sizes
  - Series G4100: 3/4" or 1" hose sizes
  - Series 6000: 1/2" – 1" hose sizes
  - Series 7000 (dual hose): 3/4" or 1" hose sizes
  - Series 7500*: 1-1/4" or 1-1/2" hose sizes
  - Series 8000: 1-1/2" or 2" hose sizes
  - Series 9000: 2-1/2" or 3" hose sizes
- Portable Hose Reels on Wheels
  - Series 1100, AT1200: 3/8" – 1" hose sizes
- Portable Storage Reels on Wheels
  - Series C1150, ATC1250
- Storage Reels: Manual or Power Rewind
  - Series C1500: 1/4” – 1" O.D. hose sizes
  - Series C3200 (manual only): 1/2” – 1-1/2” O.D. hose sizes

*Reel is appropriate for fuel/lubrication applications

---

**Hannay Reels: The industry choice.**

Designed to spec and built of the highest quality materials, our reels stand up to the most demanding conditions of any industry. We offer thousands of hose and cable reels that help improve efficiency, productivity, and safety in your operation by keeping hoses and cables organized and off the floor.

The heavy-duty design and construction of our reels ensure that they outlast the competition and save you money. And bolted-on components and conveniently located swivel joints make servicing our reels quick and trouble-free.

Every reel we build is created for the industry in which it will be used, from processing to welding to maintenance and more – never retrofitted to the job. That means you can trust Hannay reels to be durable and dependable for years to come.

**Uses:**

- Blasting/slurry
- Hydraulic/pneumatic power tools
- Washdown and sanitation
- Chemical transfer
- Power wash/steam cleaning
- Potable water
- Pressurized air
- Gas welding
- Fuel and lubrication
- Electric cable for lights, tools, and machinery
- In-plant firefighting
- Vacuum and suction
**Hannay Reels 3-Year Limited Warranty**

Products manufactured by Hannay Reels, Inc. (“Hannay”) are warranted for 3 years from date of shipment when properly installed, maintained, and operated in accordance with Hannay instructions. In no event will Hannay have a warranty obligation for normal wear and tear, or for products that have, at Hannay’s determination, been subjected to accident, abuse, misapplication, improper installation or improper maintenance. Common examples of normal wear and tear would include paint finish, swivel joint seal wear, and switch or motor brush wear.

Hannay makes no warranties, express or implied, other than those included in this warranty statement, and we disclaim any implied warrant of merchantability or fitness for any particular purpose. Hannay will not be liable for any consequential, incidental, or indirect damages from any cause whatsoever.

Failure to use a flexible inlet connection on any live hose reel will void the swivel joint warranty. Failure to use a properly sized circuit breaker with any electric rewind motor will void the electric motor warranty. Failure to use a filter and lubricator on any air rewind motor will void the air motor warranty. Failure to follow all procedures outlined in the Safety Guidelines document will void the warranty.

**Notice on Reel Finish**

Standard finish on Hannay reels is a high performance modified acrylic enamel paint. Standard color is metallic graphite. Other colors available at no additional cost include red, white, black, and primer.

Most of the major components on standard reels are e-coated prior to receiving final topcoat paint finish. This combination of e-coat and enamel topcoat will meet the finish requirements of most customer applications and environments.

In cases where requirements cannot be met with the standard finish, Hannay Reels can coat any model reel with an automotive primer, allowing application of final coating at your facility. Alternatively, Hannay Reels can provide a quote for matching a customer-provided paint specification. For further information, please contact your Hannay Reels sales engineer and a special paint request form will be sent to you.

For environments where no paint finish is suitable, we offer both aluminum and stainless steel (304 grade) construction on most reel models.

**Return Goods Policy**

All Hannay reels are built to order. These orders are typically placed into production within 1 business day of receipt. Once production begins, it may not be possible to cancel the order.

To prevent returns because the wrong reels or parts were ordered, please use the Hannay Reels Spec Worksheet (either online or from our Order Accessory Guide) when specifying reels. Be sure to include any size, weight, pressure and/or material compatibility limitations for the application.

In the event that an item does need to be returned for credit, repair or replacement, prior approval must be obtained from Hannay Reels. Upon your request, we will send a Return Goods Authorization (RGA) form. A signed copy of this form must accompany the material when returned to us, with the RGA number clearly showing on the outside of the box—a label is provided to you that you can print and attach. No product will be accepted for return or credit without an authorized RGA number.

All material must be returned prepaid, unless otherwise noted on our RGA. No return will be accepted that has been damaged due to improper return packaging, tampered with or altered from its original condition. Our restocking and handling fee is a minimum of 25% for standard catalog reels and parts. Custom reels specially built to customer specifications cannot be returned for any reason.
Hannay Reels Spec Worksheet

To specify Hannay reels, fill out this simple form and mail, fax or email it to your dealer. Photocopy this page or download and print from hannay.com.

For custom applications not found in our catalogs, call the Inside Sales Group at 518-797-3791.
**Hose Assemblies**

Hose Assemblies allow us to quote the hose along with the reel to simplify your procurement process. Hannay inventories a wide variety of hose assemblies for common applications like general purpose air and water, petroleum products, hydraulics, oxygen/acetylene, breathing air, and rescue equipment. Special lengths, fittings, and custom application assemblies are usually available in 5 to 10 business days. Beside the I.D. and Length, be sure to know the Temperature Range, Fluid, Working Pressure, and Fitting Specifications for your hose.

### Low Pressure Hose

We stock a variety of low pressure hose assemblies in several sizes and lengths. We offer hose with EPDM cover and tube and brass fittings, which are excellent for air, water, and many agricultural chemicals. EPDM is recommended for outside usage due to its resistance to heat, sunlight, and weathering.

For shop use, we offer a hose with high oil resistant tube and cover. It is suitable for use with petroleum based hydraulic fluid, lubricating oil, anti-freeze, diesel fuel, water, and air and may be special ordered in several different colors. Hoses for specialty applications are available upon request.

### Medium and High Pressure Hose

Several different hydraulic and general purpose hose assemblies are offered to meet the specifications of your particular application. We stock an assortment of common sizes to be able meet your needs with a minimum delivery time.

### Twin Hydraulic Hose

Hannay Reels offers bonded hydraulic hose that helps solve problems associated with unwinding and storing multiple lines. Various options are available not only for hydraulic fluid, but a wide variety of chemicals, agricultural sprays, urethane foam mixers, and fire resistant fluids.

### Twin Oxygen/Acetylene Hose

We stock Grade R and Grade T twin hose assemblies in 1/4” and 3/8” in lengths of 50’, 75’, and 100’ which will cover most requirements for oxygen/acetylene, as well as propane and MAPP. For oxygen/acetylene reels, see the Hannay Welding Reels Catalog H-0408-W.

---

**Note:** All spring rewind reels complete with hose are supplied with appropriate hose stop. (See Ordering & Accessory Guide.)

SPRING REWIND REELS

Series AG | With Patented Air Speed Control Governor

**To handle 1/4” through 1-1/2” I.D. hose.**

Most Hannay spring reel models are available with an air governor rewind assist, which prevents the hose from winding back onto the reel too quickly. Speed is regulated by restricting air flow through an air governor attached to the rewind mechanism. The result is smooth, controlled rewind speed each and every time.

Unlike other speed control mechanisms designed for spring rewind reels, there are 3 major advantages to the Hannay design:

1. **Highly scalable** – The air speed control governor can be scaled up to regulate speed on even the most powerful spring reels we offer. Other designs can only work on light-duty springs.

2. **Operates in all climates** – Because the AG Series uses air flow to control speed (not hydraulic fluid, which can change viscosity depending on temperature), the reel’s rewind speed is controlled and unaffected, even by cold weather.

3. **Fully adjustable** – The end-user can turn the air restrictor clockwise or counterclockwise until the optimal rewind speed is found for the application.

For further information (other than dimensions) on any of the AG Series reels listed below, please go to the following pages in this catalog:

- **AG600 Series**: Go to page 11 (Series 600)
- **AG700 Series**: Go to page 13 (Series 700)
- **AG800 Series**: Go to page 15 (Series 800)
- **AG900 Series**: Go to page 16 (Series 900)
### SPRING REWIND REELS

#### Series AG

**Notes:**

A hose stop is necessary to keep spring from unwinding.

1. Specifications subject to change.

*** X, Y indicate mounting holes. See page 5.
To handle twin 1/4” or 3/8” I.D. welding hose.

- Heavy-duty spring motor.
- Non-sparking ratchet assembly.
- Declutching arbor to prevent damage from reverse winding.
- Standard inlets: 90° ball bearing swivel joints, 1/2” female NPT threads.
- Standard outlets: male 9/16”-18 threads, right-hand for oxygen, left-hand for gas.
- Pressures to 300 psi (21 bar).
- Temperatures from -40°F to +200°F (-40°C to +93°C).
- Type of gas used must be specified.
- Hose stop is required.
- 4-way roller assembly.

**Standard configuration shown**
To handle single 1/4" or 3/8" I.D. hose.
- Compact frame and narrow base.
- Non-sparking ratchet assembly.
- Declutching arbor to prevent damage from reverse winding.
- Standard inlet: 90° swivel joint, 1/4" female NPT threads. 3/8" female NPT threads are optional and must be specified.
- Standard outlet: 1/4" female NPT threads. 3/8" female NPT threads are optional and must be specified.
- Other threads can be furnished and must be specified.
- Standard 1/4” pressure and temperature: 10,000 psi (690 bar), -40°F to +250°F (-40°C to +121°C).
- Standard 3/8” pressure and temperature: 3000 psi (207 bar), -40°F to +250°F (-40°C to +121°C).
- Optional 3/8” pressure: 8000 psi (552 bar) – must specify.
- 4-way roller assembly.
- SR and VR roller positions: swivel joint is standard on the right. TR roller positions: swivel joint is standard on the left. Other configurations available, must specify.
- Constant tension is available – consult factory.

Optional Swivel Mounting Bracket
Part No. 9908.9990. For N-Series spring retractable reels, available as a kit. Conditions apply, consult factory.
Series N600 | Dual Hose

- Hydraulics • Spray Painting • Air/Water

To handle dual 1/4” through 1/2” I.D. hose.

- Narrow frame and compact mounting base.
- Non-sparking ratchet assembly.
- Declutching arbor to prevent damage from reverse winding.
- Standard inlets: 90° balanced pressure swivel joints, 1/2” female NPT threads.
- Standard outlets: 1/2” female NPT threads.
- Standard pressures to 3000 psi (207 bar), available up to 10,000 psi (690 bar) – must specify.
- Temperatures from -60°F to +250°F (-51°C to +121°C), optional temperatures to +400°F (+204°C) – must specify.
- 4-way roller assembly.
- SR and VR roller positions: swivel joint is standard on the right. TR roller positions: swivel joint is standard on the left. Other configurations available, must specify.
- Constant tension is available – consult factory.
- Reels for use with oxygen/acetylene. See Series N400 on page 8.
- Optional full flow swivel joint is available upon request. Add 1-3/4” to “F” dimension.

### Series N700

- **Lubrication** • **Air/Water** • **Assembly Operations**
- **Washdown** • **Air Tools** • **General Industrial Applications**

#### To handle 1/4” through 1/2” I.D. hose.

- Narrow frame and compact mounting base.
- Non-sparking ratchet assembly.
- Declutching arbor to prevent damage from reverse winding.
- Standard inlet: 90° balanced pressure swivel joint, 1/2” female NPT threads.
- Standard outlet: 1/2” female NPT threads.
- Standard pressures to 3000 psi (207 bar), available up to 10,000 psi (690 bar) – must specify.
- Temperatures from -60°F to +250°F (-51°C to +121°C), optional temperatures to +400°F (+204°C) – must specify.
- 4-way roller assembly.
- SR and VR roller positions: swivel joint is standard on the right. TR roller positions: swivel joint is standard on the left. Other configurations available, must specify.
- Constant tension is available – consult factory.

#### Notes:

- A hose stop is necessary to keep spring from unwinding.
  1. Specifications subject to change.
  2. Reel models and capacities shown are for standard drag applications; for vertical lift applications, consult factory.
  3. Other sizes, from standard components, available on request.
  4. Finish: Refer to page 3.

- Be sure to check dimensions and weights prior to ordering.
  - **NOTICE:** A flexible connector must be used between the inlet pipe and the inlet swivel joint.
  - *Dimensional weight may apply when shipped as a parcel package (via FedEx or UPS Ground).*
  - ***X, Y indicate mounting holes. See page 5.
  - †Capacity based on low pressure air hose only. Not for vertical lift applications.

### Optional Swivel Mounting Bracket

Part No. 9908.9990. For N-Series spring retractable reels, available as a kit. Conditions apply, consult factory.
To handle 1/4” through 1/2” I.D. hose.

- Rollformed channel frame for heavy-duty applications.
- Non-sparking ratchet assembly.
- Declutching arbor to prevent damage from reverse winding.
- Standard inlet: 90° balanced pressure swivel joint, 1/2” female NPT threads.
- Standard outlet: 1/2” female NPT threads.
- Standard pressures to 3000 psi (207 bar), available up to 10,000 psi (690 bar) – must specify.
- Temperatures from -60°F to +250°F (-51°C to +121°C), optional temperatress to +400°F (+204°C) – must specify.
- 4-way roller assembly.
- SR and VR roller positions: swivel joint is standard on the right. TR roller positions: swivel joint is standard on the left. Other configurations available, must specify.
- Constant tension is available – consult factory.

Available Roller Positions:
- SR (STD)
- VR (OPT)
- TR (OPT)
- TR (Wallmount)
To handle single 1/4", 3/8" or 1/2" I.D. hose.

- Lightweight, compact with an e-coated frame.
- Direct crank rewind permanently attached.
- Adjustable cam-lock brake standard.
- Exterior mounting holes for easier installation.
- Redesigned (and field installable) pin lock.
- Standard inlet: 90° ball bearing swivel joint, 1/2" female NPT threads.
- Standard outlet: 3/8" female NPT threads, 1/2" available upon request.
- Standard pressures to 3000 psi (207 bar), available up to 5,000 psi (345 bar) – must specify.
- Temperatures from +20°F to +400°F (-7°C to +204°C).

Series 1500

- Lawn Care
- Pest Control
- Pressure Washing
- Agriculture
- Steam Cleaning

To handle single 3/8” through 5/8” I.D. hose.

- Lightweight, compact reels designed for long lengths of hose in manual and power rewind.
- Manual rewind reels include: cam-lock drag brake, spring actuated pin lock and direct crank rewind.
- Power rewind reels include: chain and sprocket drive powered by electric, hydraulic or air motor.
- Standard inlet: 90° ball bearing swivel joint, 1/2” female NPT threads.
- Standard outlet: 1/2” female NPT threads.
- Standard pressures to 3000 psi (207 bar), available up to 10,000 psi (690 bar) – must specify.
- Temperatures from -20°F to +400°F (-7°C to +204°C).
- Rollers and roller mounting brackets are accessory items. Specify roller position.

Notes:
1. Specifications subject to change.
2. Upon request, reels can be supplied with drum lengths other than shown.
3. Weights shown in chart are for crank rewind models. ADD these amounts for power rewind models (does not apply to FedEx or UPS):
   - Electric: 18 lbs/kg
   - Hydraulic: 15 lbs/kg
   - Air: 15 lbs/kg

4. Dimension “F” is the overall length of standard model reels.
5. When ordering power rewind models, prefix model number with:
   - A = Air Rewind – Supplied with control valve and 18” air hose.
   - E = Electric Rewind – 12v and 24v DC rewinds are supplied with switch and solenoid; 115v AC rewind reels are not supplied with switch but can be ordered separately.
   - HD = Hydraulic Rewind – Not supplied with control valve.

6. Manual rewind available in RT or LB configurations only.
7. Finish: Refer to page 3.
8. Be sure to check dimensions and weights prior to ordering.
9. Some roller options may prohibit the use of our molded chain guard.

NOTICE: A flexible connector must be used between the inlet pipe and the inlet swivel joint.

* Dimensional weight applies when shipped as a parcel package (via FedEx or UPS Ground).
*** X, Y indicate mounting holes. See page 5.
To handle single 5/8” or 3/4” I.D. hose.

- Lightweight, compact reels designed for long lengths of hose in manual and power rewind.
- Manual rewind reels include: cam-lock drag brake, spring actuated pin lock and direct crank rewind.
- Power rewind reels include: chain and sprocket drive powered by electric, hydraulic or air motor.
- Standard inlet: 90° ball bearing swivel joint, 1” female NPT threads.
- Standard outlet: 3/4” female NPT threads.
- Standard pressures to 2000 psi (138 bar), available up to 4000 psi (276 bar) – must specify.
- Temperatures from -40°F to +250°F (-40°C to +121°C).
- Rollers and roller mounting brackets are accessory items. Specify roller position.

**Notes:**

1. Specifications subject to change.
2. Upon request, reels can be supplied with drum lengths other than shown.
3. Weights shown in chart are for crank rewind models. ADD these amounts for power rewind models (does not apply to FedEx or UPS):
   - Electric: 18 lbs/kg (8.2 kg)
   - Hydraulic: 15 lbs/kg (6.8 kg)
   - Air: 15 lbs/kg (6.8 kg)
4. Dimension “F” is the overall length of standard model reels.
5. When ordering power rewind models, prefix model number with:
   - A = Air Rewind – Supplied with control valve and 18” air hose.
   - E = Electric Rewind – 12v and 24v DC rewind reels are supplied with switch and solenoid; 115v AC rewind reels are not supplied with switch but can be ordered separately.
   - HD = Hydraulic Rewind – Not supplied with control valve.
6. Manual rewind available in RT or LB configurations only.
7. Finish: Refer to page 3.
8. Be sure to check dimensions and weights prior to ordering.
9. Some roller options may prohibit the use of our molded chain guard.

**NOTICE:** A flexible connector must be used between the inlet pipe and the inlet swivel joint. * Dimensional weight applies when shipped as a parcel package (via FedEx or UPS Ground). ** Standard mesh size applies when shipped as a parcel package (via FedEx or UPS Ground).
Series 2000 Dual Hose
- Hydraulics • Spray Painting • Air/Water

To handle dual 1/4” through 1/2” I.D. hose.
- Two swivel joint inlets and two outlet risers to handle two equal lengths of hose.
- Chain-driven crank rewind or chain and sprocket rewind powered by an electric or compressed air motor.
- MX crank rewind reels have pinion brake as standard.
- Power rewind reels are not supplied with a brake.
- Standard inlets: 90° ball bearing swivel joints, 1/2” female NPT threads.
- Standard outlets: 1/2” female NPT threads.
- Standard pressures to 3000 psi (207 bar), available up to 10,000 psi (690 bar) – must specify.
- Temperatures from +20°F to +400°F (-7°C to +204°C).
- Reels for use with oxygen/acetylene.

See Series 2400 Hannay Reels Welding Catalog H0408-W.

2. Upon request, reels can be supplied with drum lengths other than shown.
3. Weights shown in chart are for crank rewind models. Add these amounts for power rewind models (does not apply to FedEx or UPS):
   - Electric: 18/8.2 kg
   - Air: 15/6.8 kg
4. Dimension “F” is the overall length of standard model reels. MX chain-drive crank models require 2” clearance to remove crank handle.
5. When ordering power rewind models, prefix model number with:
   - A = Air Rewind – Supplied with control valve and 18” air hose.
   - E = Electric Rewind – 12v and 24v DC rewind reels are supplied with switch and solenoid; 115v AC rewind reels are not supplied with switch but can be ordered separately.
   - MX = Chain-Driven Crank.
6. Finish: Refer to page 3.
7. Be sure to check dimensions and weights prior to ordering.
8. Some roller options may prohibit the use of our molded chain guard.

**NOTICE:** A flexible connector must be used between the inlet pipe and the inlet swivel joint.

* Dimensional weight applies when shipped as a parcel package (via FedEx or UPS Ground).

*** X, Y indicate mounting holes. See page 5.
To handle dual 1/4" through 1/2" I.D. hose.

- Two swivel joint inlets and two outlet risers to handle two equal lengths of hose.
- Gear-driven crank rewind.
- Pinion brake as standard.
- Standard inlets: 90° ball bearing swivel joints, 1/2" female NPT threads.
- Standard outlets: 1/2" female NPT threads.
- Standard pressures to 3000 psi (207 bar), available up to 10,000 psi (690 bar) – must specify.
- Temperatures from +20°F to +400°F (7°C to +204°C).
- For power rewind, see Series 2000, page 20.
- Reels for use with oxygen/acetylene.

See Series 2400 Hannay Reels Welding Catalog H0408-W.

### Optional External Mounting Brackets

Part No. 9906.0027. Add 2-1/2" to the X dimensions shown in the chart.

*** X, Y indicate mounting holes. See page 5.
**Series 3000**

- **Fuel Dispensing** (Consult Factory)
- **Spray Operations**
- **Fire Protection**

To handle 3/4” or 1” I.D. hose.

- Economical manual rewind reels for long lengths of hose.
- Choose disc rewind or removable direct crank rewind.
- Supplied with spring actuated pin lock.
- Standard inlet: 90° ball bearing swivel joint, 1” female NPT threads.
- Standard outlet: 1” female NPT thread.
- Standard: inlet, outlet riser, and hub assembly are steel. Options: swivel joint also available in aluminum or stainless steel. Riser and hub assembly also available in stainless steel.
- Standard pressures to 2000 psi (138 bar), available up to 4000 psi (276 bar) – must specify.
- Temperatures from -60°F to +250°F (-51°C to +121°C).
- Rollers and roller mounting brackets are accessory items. Specify roller position.

Series 4000

- Fuel Dispensing (Consult Factory)
- Water Supply
- Fire Protection
- Chemical Transfer

To handle single 3/4” or 1” I.D. hose.

- Lightweight, compact reels designed for long lengths of hose in manual and power rewind.
- Manual rewind reels include: cam-lock drag brake, spring actuated pin lock and removable direct crank rewind.
- Power rewind reels include: chain and sprocket drive powered by electric, hydraulic or air. Strap brake is standard.
- Standard inlet: 90° ball bearing swivel joint, 1” female NPT threads.
- Standard outlet: 1” female NPT threads.
- Standard pressures to 2000 psi (138 bar), available up to 4000 psi (276 bar) – must specify.
- Temperatures from -60°F to +250°F (-51°C to +121°C).
- Rollers and roller mounting brackets are accessory items. Specify roller position.

Optional External Mounting Brackets
Part No. 9906.0027. Add 2-1/2” to the X dimensions shown in the chart.

Series 6000

- Fuel Dispensing (Consult Factory) • Fire Protection
- Spray Operations • Water Blasting* • Sewer Cleaning*

**To handle single 1/2” through 1” I.D. hose.**

- Heavy-duty reel for longer lengths of hose.
- Choose gear-driven crank rewind or chain and sprocket drive powered by an electric, hydraulic or compressed air motor.
- Crank rewind reels supplied with pinion brake; power rewind reels with a strap brake.
- Standard inlet: 90° ball bearing swivel joint, 1” female NPT threads.
- Standard outlet: 1” female NPT threads.
- Standard: inlet, outlet riser, and hub assembly are steel. Options: swivel joint also available in aluminum or stainless steel. Riser and hub assembly also available in stainless steel.
- Standard pressures to 2000 psi (138 bar), available up to 5000 psi (345 bar) – must specify.
- Temperatures from -60°F to +250°F (-51°C to +121°C).
- Rollers and roller mounting brackets are accessory items. Specify roller position.
- Consult factory for optional chain guard.

* Heavy-duty construction required for water blasting and sewer cleaning applications. Consult factory.

---

**Optional Auxiliary Rewind**

Ring and pinion shaft rewind unit with removable crank handle.

---

**Notes:**
1. Specifications subject to change.
2. Upon request, reels can be supplied with drum lengths other than shown and with disc sizes in other diameters.
3. Dimensions shown for reels up to and including 30-31 disc size reflect pressed frames. All others are rollformed channel frames.
4. Weights shown in chart are for crank rewind models. ADD these amounts for power rewind models.
5. When ordering power rewind models, prefix model number with:
   - A = Air Rewind – Supplied with control valve and 18” air hose.
   - EP = Electric Rewind (1/2 HP) – 12v and 24v DC rewind reels are supplied with switch and solenoid; 115v AC rewind reels are not supplied with switch but can be ordered separately.
   - HD = Hydraulic Rewind – Not supplied with control valve.
6. **NOTICE:** A flexible connector must be used between the inlet pipe and the inlet swivel joint.
7. Some applications require a clutch/ reduction unit.
To handle dual 3/4” or 1” I.D. hose.

- Two swivel joint inlets and two outlet risers to handle two equal lengths of hose.
- Choose gear-driven crank rewind or chain and sprocket drive powered by an electric, hydraulic or compressed air motor. An auxiliary rewind is standard.
- Crank rewind and power rewind reels, pinion brake is standard.
- Standard inlets: 90° ball bearing swivel joints, 1” female NPT threads.
- Standard outlets: 1” female NPT threads.
- Standard pressures to 2000 psi (138 bar), available up to 5000 psi (345 bar) – must specify.
- Temperatures from -60°F to +250°F (-51°C to +121°C).
- Consult factory for optional chain guard.

MANUAL OR POWER REWIND REELS

Series 7500

- Fuel Dispensing (Consult Factory)
- Bulk Transfer
- Suction/Discharge (Consult Factory)

To handle single 1-1/4" or 1-1/2" I.D. hose.

- Choose gear-driven crank rewind or chain and sprocket drive powered by an electric, hydraulic or compressed air motor.
- Crank rewind reels supplied with pinion brake and power rewind reels with a strap brake.
- Standard inlet: 90° ball bearing swivel joint, 1-1/2” female NPT threads, and 2” Victaulic® groove.
- Standard outlet: flanged riser, 1-1/2” female NPT threads.
- Standard: inlet, outlet riser, and hub assembly are steel. Options: also available in aluminum or stainless steel.
- Standard pressures to 600 psi (41 bar), available up to 1000 psi (69 bar) – must specify.
- Temperatures from -25°F to +250°F (-32°C to +121°C), optional temperatures to +400°F (+204°C) – must specify.
- Rollers and roller mounting brackets are accessory items. Specify roller position.
- Consult factory for optional chain guard.

Series **1100/AT1200**

- Grounds Maintenance
- Restaurants/Hotels
- Washdown Operations
- Home Use

**To handle 3/8” through 1” I.D. hose.**
- Continuous flow reels with swivel joint inlet, fluid hub, outlet riser.
- Direct crank rewind and cam-lock drag brake.
- One-piece foot and removable steel handlebar.
- GH prefix to model number (e.g., GH1100, GHAT1200) includes garden hose thread on outlet, 5’ lead-in hose, hose end clips.

**Model 1100**
- Standard inlet: 90° ball bearing swivel joint, 1/2” female NPT threads.
- Standard outlet: 1/2” female NPT threads.
- Pressures to 3000 psi (207 bar).
- Temperatures from +20°F to +400°F (-7°C to +204°C).
- Rubber tires standard.

**Model AT1200**
- Standard inlet: 90° balance pressure swivel joint, 1” female NPT threads.
- Standard outlet: 1” female NPT threads.
- Standard pressures to 2000 psi (138 bar), available up to 4000 psi (276 bar) – must specify.
- Temperatures from -40°F to +250°F (-40°C to +121°C).
- Pneumatic tires standard.

PORTABLE STORAGE REELS ON WHEELS

Series C1150/ATC1250
- Industrial Maintenance
- Construction
- Agriculture
- Grounds Maintenance

For storage of hose, cable, rope or wire.
- Direct crank rewind and cam-lock drag brake.
- One-piece foot and removable steel handlebar.

Model C1150
- A 1 1/8" x 2 3/8" (28 mm x 60 mm) opening in the drum to initiate winding.
- Rubber tires standard.

Model ATC1250
- A larger version of the C1150 with a 4 1/2" x 9" (114 mm x 229 mm) drum opening.
- Pneumatic tires standard.

Optional Folding Handle
For compact storage

Notes:
1. Specifications subject to change.
2. Some assembly required.
3. When ordering specify model number, O.D., length, and weight of cable, hose, etc.
4. Finish: Refer to page 3.
5. Be sure to check dimensions and weights prior to ordering.

*Dimensional weight applies when shipped as a parcel package (via FedEx or UPS Ground).
To handle single 1/4” through 1” O.D.

- Reels are designed for storage of long lengths of hose, cable, rope, wire or other materials.
- A 1.1/8” x 2-3/8” (28 mm x 60 mm) opening in the drum to initiate winding.
- Manual rewind reels include: cam-lock drag brake, spring actuated pin lock and direct crank rewind.
- Power rewind reels include: chain and sprocket drive powered by electric, hydraulic or air motor.
- Optional divider discs can be placed at almost any point. Be sure to specify spacing of discs on your order.
- Rollers and roller mounting brackets are accessory items. Specify roller position.

**Optional External Mounting Brackets**

Part No. 9906.007. Add 2-1/2” to the X dimensions shown in the chart.

5. When ordering power rewind models, prefix model number with:
   - A = Air Rewind – Supplied with control valve and 18” air hose.
   - E = Electric Rewind – 12v and 24v DC rewind reels are supplied with switch and solenoid; 115v AC rewind reels are not supplied with switch but can be ordered separately.
   - HD = Hydraulic Rewind – Not supplied with control valve.
6. Finish: Refer to page 3.
7. Be sure to check dimensions and weights prior to ordering.
   *Dimensional weight applies when shipped as a parcel package (via FedEx or UPS Ground).
   *** X, Y indicate mounting holes. See page 5.
### Storage Reels: Manual Rewind

**Series C3200**
- Hose
- Rope
- Cable
- Wire

#### To handle single 1/2" through 1-1/2" O.D.

- A 4-1/2" x 9" (114mm x 229mm) opening in the drum to initiate winding.
- Designed for storage of long lengths of hose, cable, rope, wire or other materials.
- Choose disc rewind or removable direct crank rewind.
- Supplied with spring actuated pin lock.
- Optional divider discs can be placed at almost any point. Be sure to specify spacing of discs on your order.
- Rollers and roller mounting brackets are accessory items. Specify roller position.
- For power rewind, see Series C in cable reels catalog H0507-C.

#### Optional Aluminum Hand Cart
4300-AL mounting available.

#### Parts Drawing – ISO 117

View all our reel catalogs online at hannay.com

Family owned and operated since 1933, Hannay Reels is the world leader in both OEM and aftermarket applications. Hannay offers thousands of standard hose reel and cable reel models, as well as unmatched custom capabilities. We can easily and affordably customize a reel to meet your exact specifications – built to last, delivered fast. Additional catalogs are available through your local Hannay Reels dealer or online at hannay.com.

All Hannay reels are constructed of quality heavy gauge steel (optional aluminum or stainless steel also available on most models).
Hannay Reels for Corrosive Chemical Applications

Hannay Reels offers the most durable, dependable hose reels for the safe handling of a variety of corrosive and sensitive chemicals.

Our specialty designed reels are used in chemical distribution/delivery for a variety of applications including: commercial/community pools, water parks, toxic waste recycling, bulk handling of acid, bleach, chlorine, pesticides, fertilizers and more.

Specifications:

• Handles 3/8" through 1-1/2" ID hose, ranging from 50 ft up to 200 ft in length. For larger ID hose please consult factory.

• Standard inlet: CPVC swivel joint resists corrosion and provides longer life.

• Slotted hub for hose passage, with drum cut out on opposite side from the swivel joint. Fluid will not come in contact with metal, as the hose acts as the sole fluid path.

• Manual or power rewind with optional auxiliary crank rewind on specific models.

• Special swivel mounting bracket with clamp to hold the CPVC swivel in place.

ORDERING INFORMATION:

Contact Hannay Reels Inside Sales Department at: 877-467-3357 or email reels@hannay.com for more information. Be sure to provide detailed specifications on hose type, ID/OD and application information when ordering.
Hannay Offers Industrial Vacuum Reel Options

Four new series of industrial strength reels are now available. The VAC4000, VAC900, VACN900 & VAC2900 are designed specifically for shop vacuum applications, car detailing operations and general industrial vacuum needs.

These reels handle up to 50’ of 1-1/2” or 2” ID vacuum hose, are constructed of heavy-duty steel and available in manual or spring return to automatically rewind hose.

VAC4000 Standard Features:

- To handle 1-1/2” ID industrial vacuum hose.
- Includes permanently attached crank handle and cam-lock drag brake.
- Rollformed channel frame for heavy duty applications.
- Internal hub connection to fit hose cuff.

Hannay Special Heavy-Duty 1500 Series Reels

Hannay Reels 1500 series reel, used for pressure washing, steam cleaning, high and low pressure water supply, air and more, can be upgraded to handle heavy-duty jetting operations as well.

Upgrades include providing a stiffer spool to counter high-pressure hose expansion concerns, a reinforced frame for extra rigidity and a larger drum to accommodate hose with a higher bend radius.

Standard Features:

To handle single 3/8" through 5/8" I.D. hose.
- Lightweight, compact reels designed for long lengths of hose in manual or power rewind.
- Direct crank rewind is permanently attached.
- Manual reels include cam-lock drag brake and pin lock. Power reels include chain and sprocket drive powered by electric motor.
- Standard inlet: 90° full flow swivel joint, 1/2" FNPT threads. Standard outlet: 1/2" FNPT threads.
- Standard pressures up to 3000 psi (207 bar) and temperatures to +400°F (+204°C).

Upgrade Options:

- 3/16" thick discs are 2.5 times thicker than standard to better handle high pressure hose expansion.
- 8" diameter steel 14 gage drum to handle hose with higher bend radius.
- Welded frame base for superior strength and rigidity.
- Optional pressures of 5,000 psi or 10,000 psi available.

ORDERING INFORMATION:

Contact Hannay Reels Inside Sales Department at: 877-467-3357 or email reels@hannay.com for more information.
